Re: HORN Technology Days 2019

Dear Guest;

We cordially invite you to attend HORN Technology Days 2019, held at Paul Horn GmbH, in Tübingen, Germany June 5-7, 2019.

HORN Technology Days has become very successful over the years. The number of visitors and outside Technology Distributors has increased with each occurrence of this biennial event. This year's version maintains the tradition with high expectations and greater numbers of attendees where we will also celebrate 50 years in the market.

HORN Technology Days 2019 includes forty-six (46) external suppliers to highlight high-precision machining. Horn will present eight (8) technical themed presentations, as well as corresponding live machine demonstrations of each individual technical theme. All eight (8) presentations will be repeated each day in multiple languages in order to accommodate our increasing contingent of International Visitors.

As a Technology Days 2019 guest, you will be free to tour the facility as well as speak with technicians throughout the day. A flier with details about suppliers and the individual technical presentations is included with this correspondence and available online.

We welcome you to attend any or all days, however, we suggest the following schedule for Horn USA guests. Arrive on Wednesday June 5th; attend Technology days on June 6th and 7th. On Saturday, June 8th, Horn USA will host a group tour of an area near Tübingen and return home on the 9th.

During your stay, HORN will cover the cost of the Hotel room, Group Meals (outside of Technology days and while in Tübingen visiting the factory (5th, 6th, 7th and 8th); any additional incidentals would be borne by the traveling party. We will also arrange transportation from the airport or train station to and from the hotel as well as transportation daily to and from the event.

We look forward to working together with you in 2019 and hope to see you in Tübingen this June. RSVP and Registration information is included in this document.

Sincerely,
Horn USA, Inc.

Duane Drape
National Sales Manager
